## Care and Maintenance

### Stone - Marble

#### Cleaning Product(s):

Soft sponge

pH neutral soap

Clean, white, lintless cotton cloth

#### Instructions:

For regular maintenance, use a soft sponge dampened with a neutral pH soap such as Marseille soap. Rinse and wipe off the excess moisture with a dry cloth. It is recommended to make light and circular movements in order to avoid marks.

#### Notes:

Be careful not to spill acid (champagne, vinegar, lemon) which could attack the stone.

#### Yearly Maintenance:

Applying a protective stainproof treatment every year is recommended to maintain the beauty and quality of the marble.
