

LIAIGRE

Care and Maintenance

Leather - Nubuck

Cleaning Product(s):

Stiff brush

Instructions:

For general cleaning, use a stiff brush to gently brush along hide to remove dust. For deep cleaning, contact a professional.

Notes:

No two skins are ever the same. Certain marks are intrinsic to this fine material (scars, wrinkles, insect bites and small differences in grain print due to the changes in thickness. LIAIGRE leather are full grain and selected according to exceptional criteria. They are treated to resist light and are fireproof. It is recommended not to expose the leather to direct sunlight and lunar rays or place near a radiator, to prevent it from bleaching, drying and hardening.
