

LIAIGRE

Care and Maintenance

Tulle

Cleaning Product(s):

Clean, damp chamois cloth

Clean, white, lintless cotton cloth or soft brush

pH neutral soap

Instructions:

For everyday cleaning, dampen a chamois cloth and ring excess water dry. Wipe surface until clean. For spot cleaning and deeper cleaning, absorb any stains with a dry cloth immediately. Dampen a clean, white lintless cotton cloth or soft brush. Lather pH neutral soap into damp cloth and wipe Tulle surface clean. Rinse cloth or brush with clean water and wipe surface again to remove all excess soap. Dry with a second clean, cotton cloth.

Notes:

The tulle finish is a resistant work of art, difficult to scratch and relatively impervious.
